

Code for video: "Validations"

Under the Models folder update the contact.rb file:

```
class Contact < ActiveRecord::Base  
  
  validates_presence_of :name  
  validates_presence_of :email  
  validates_presence_of :message  
  
end
```

Under controllers update contacts\_controller.rb with:

```
else  
  redirect_to pages_contact_path  
  flash[:danger] = "Opps, there was a problem! Please fill out all the fields."  
  
end
```
