

Code for video: "Mailer Form"

In your view/pages create a partial called `_mailer.html.erb`

Add this code:

```
<div class="row">
  <div class="col-md-4 col-md-offset-4">
    <div class="well">
      <%= simple_form_for @contact do |f| %>
        <%= f.input :name %>
        <%= f.input :email %>
        <%= f.input :message %>
        <%= f.submit "Get in touch!", class: "btn btn-info" %>
      <% end %>
    </div>
  </div>
</div>
```

In your pages controller update the def contact

```
def contact
  @contact = Contact.new
End
```

Now go to you pages folder and open `contact.html.erb` and add this code to render the form.

```
<div class="row">
  <div class="col-lg-12 text-center">
    <h1>Contact Us</h1>
    <p class="lead">Test Text</p>
    <ul class="list-unstyled">
      <li>List Item</li>
      <li>List Item 2</li>
    </ul>
  </div>
  <%= render 'pages/mailer' %>
</div>
```
