

Code for video: "Active Record Associations"

http://guides.rubyonrails.org/association_basics.html

1. update models/article.rb

```
class Article < ActiveRecord::Base
```

```
  belongs_to :user  
end
```

2. update models/user.rb

```
class User < ActiveRecord::Base  
  # Include default devise modules. Others available are:  
  # :confirmable, :lockable, :timeoutable and :omniauthable  
  devise :database_authenticatable, :registerable,  
         :recoverable, :rememberable, :trackable, :validatable  
  has_many :articles  
end
```
