

Code for video: "Edit Edit User Registration"

Under the devise folder in "registrations we updated the edit.html.erb

```
<div class="form-inputs">

  <%= f.input :username, required: true, autofocus: false %>
  <%= f.input :email, required: true, autofocus: true %>
  <%= f.input :firstname, required: false, autofocus: false %>
  <%= f.input :lastname, required: false %>

  <% if devise_mapping.confirmable? && resource.pending_reconfirmation? %>
    <p>Currently waiting confirmation for: <%= resource.unconfirmed_email %></p>
  <% end %>

  <%= f.input :current_password, hint: "we need your current password to confirm your changes",
required: true %>
  <%= f.input :password, autocomplete: "off", hint: "leave it blank if you don't want to change it",
required: false %>
  <%= f.input :password_confirmation, required: false %>

</div>
```
