Code for video: "Hello World So 1996"

1. git checkout -b pages
2. update to conig/routes.rb

```ruby
Rails.application.routes.draw do

root to: 'pages#index'
end
```

3. created pages controller in app/controllers/pages_controller.rb

```ruby
class PagesController < ApplicationController

  def index
  end

end
```

4. in app/views created pages folder
5. created index.html.erb   app/views/pages/index.html.erb

```html
<h1>Hello World!</h1>
```
