Code for video: "The Comment Partial"

Update the _comment.html.erb file in the comments folder with:

```erb
<div class="media">
  <div class="pull-left">

    <%= comment.user.username %>

  </div>
  <div class="media-body">
    <p class="media-heading pull-right">
      <%= time_ago_in_words(comment.created_at) %>
    </p><br />
    <%= comment.body %>

  </div>
</div>

        <%= link_to "Edit", edit_article_comment_path(comment.article, comment) %>

<%= link_to "Delete", [comment.article, comment], method: :delete, data: { confirm: "Are you sure?" } %>
```

Render the partial in your articles show page with:

```erb
    <!-- Post Content -->
     <%= @article.body %>

    <hr>

    <!-- Blog Comments -->
<%= render @article.comments %>
    <!-- Comments Form -->

    <%= render 'comments/form' %>
    <div class="well">
```
